PROFESSIONAL SUMMARY

B.Tech Cyber Security student at Usha Martin University with hands-on experience in OSINT investigation, digital footprinting, and vulnerability assessment. Builds custom reconnaissance and threat-scouting tools in Python, and has completed internships spanning penetration testing, bug bounty research, and defensive security. Seeking an internship with a Cyber Police unit or LEA-aligned organization to support digital forensics and cybercrime investigation under experienced officers.

CORE SKILLS

- **Investigation & Security:** OSINT Analysis, Digital Footprinting, Threat Scouting, Vulnerability Assessment, Bug Bounty Research, Basic Cryptanalysis
- **Programming & Tools:** Python (automation & scripting), JavaScript, HTML5/CSS3, Kali Linux, Git & GitHub

TECHNICAL PROJECTS

ReconX — Public OSINT Intelligence Interface reconx.site

- Designed and built a web-based OSINT framework that automates the initial passive-reconnaissance phase of a digital investigation, streamlining early-stage target footprinting for investigators.

Custom OSINT Automation Engine

- Developed a multi-threaded Python script that queries public data sources to aggregate open-source records, supporting faster identification of exposed digital assets. *Repository:* github.com/enthem-nitish/osint-tool

INTERNSHIPS & EXPERIENCE

Cybersecurity Intern

Jun 2026 – Present

Prodigy InfoTech · Remote Student Internship

- Reviewed system architecture for security weaknesses and applied defensive security concepts to assess and document vulnerabilities.

Google Student Ambassador

May 2026 – Present

Google Student Ambassadors (India) · Part-time Student Representative

- Represented Google to student technical communities, running sessions on responsible AI use and secure data practices.

Penetration Testing & Bug Hunting Intern

Sep 2025 – Feb 2026

The Drop Organization · 6-Month Technical Internship

- Assisted senior researchers in identifying and documenting software vulnerabilities across client applications, following responsible-disclosure and bug-bounty workflows.

CERTIFICATIONS

- Certified Red Team Operations Management (CRTOM) — Red Team Leaders, Jan 2026
- Certified Cybersecurity Educator Professional (CCEP) — Red Team Leaders, Dec 2025
- Introduction to Penetration Testing — Security Blue Team, Jan 2026
- Cybersecurity Career Starter Certification (CCSC) — Hack & Fix, Jan 2026
- Introduction to Bug Bounty — Red Team Leaders, Jan 2026
- Drop Certified Security Course (DCSC) — The Drop Organization, Nov 2025
- Linux and Web Bug-Bounty Bootcamp — Cappricio Securities, Nov 2025
- Introduction to Cybersecurity Awareness — HP LIFE, Jun 2026

EDUCATION

B.Tech in Cyber Security

Pursuing

Usha Martin University, Ranchi, Jharkhand · Focus: Cyber Defense, Data Tracking, Front-End Development

Intermediate of Science (PCM)

Jan 2023 – Apr 2025

+2 High School, Khijarsota, Jharkhand · Grade: A+ (65.4%), Mathematics Focus
